FOREWORD

This year ours will be the ninth senior class to graduate from Cardinal Dougherty. Graduating classes are all alike to a point but because of the quickly changing world we live in the differences become greater each year. In our senior year at Dougherty we have done things that would never have been thought possible a few years ago. Values and ideas are changing quicker than they can be recorded. But though times have changed each and every one of the graduating classes had the same basic qualities that made them strive to succeed, summed up in the phrase: Being part of the school. But let us ask ourselves this question, What is a school? Is it the size or shape of a building? Is it a neighborhood? Is it a winning football record? In reference to a city Shakespeare once asked: "What is the city but the people?" In reply to his own query he stated: "The city is the people." If we apply this to a school we conclude that the school is the people. The school is its students, teachers and administration each one doing their part. If we think about this we can see that a school is no one thing but hundreds of people. Each one striving to perform to his utmost ability to attain success for himself and everyone around him. A basketball player plays his best to bring honor to the school. A teacher spends hours preparing a class so that he can educate his pupils. We are part of a small society where each one in some way works for the good of the entire school. It is this idea that we have tried to project as the theme of this year's **Signet**. We have tried to show you the people of Cardinal Dougherty during the year '69. Each producing 100% for the benefit of the school.

We have made many changes in this year's book trying to give a better picture of the entire student body. In the underclassmen pictures instead of the standard alphabetical grouping we have adopted a system whereby the group picture is made up of close friends. In both the Senior and Administration sections we have given each person a brief write-up in the hope that in years to come this will serve to stimulate many fond memories. In our introductory section and divider pages we have again emphasized individual effort in life at Dougherty.

Putting out a yearbook is no small job. And it would be impossible if I did not have many competent people I could rely on to do their part. First I must thank my three assistants—editors, Jerry Poleszak, Paul Kieta and Tom Regan, for the unbelievable amount of time which they put in on their jobs. I must thank Mr. Peters and the Student Council for their record-breaking patron drive. I am especially thankful to Fr. Howard not only for the assistance he gave but for the tremendous amount of trust which he had in me. Finally I must give my sincere thanks to Fr. Levesque for all his experienced advice and encouragement. I hope you will enjoy and cherish this yearbook as much as myself and the Signet Staff have while working on it.

DEDICATION

In keeping with the theme of this year's book, we dedicate this year's **Signet** to two men here at Dougherty, who are always giving of themselves in excessive degrees for the benefit of the school, namely Mr. Frank Strasser and Mr. William Schmitt. We hope that this dedication will express our recognition and gratitude for their continual service to the school.

Mr. Strasser first came to Dougherty in 1959. Since that time he has become Chairman of the Business Department. He is one of the persons responsible for the Data Processing Course now being taught at Cardinal Dougherty. Mr. Strasser is the Cross-Country and track Coach at Dougherty and can always be found after school or on Saturday at practice or a meet with the team.

Mr. William Schmitt also joined the Dougherty staff in 1959. He is Chairman of the Science Department of Cardinal Dougherty. He serves as Chemistry teacher and is unequalled in this capacity. Mr. Schmitt is Assistant Dean of the school. His time after school and on weekends is also often spent at the school either making improvements in the Lab or trying to improve some school systems.

We at Dougherty are especially proud of both these men in their unselfish devotion of time and effort to the people at Dougherty and we admire their initiative in taking on these extra duties at the school. To both Mr. Strasser and Mr. Schmitt Cardinal Dougherty expresses its sincere thanks for the fine years of service that they have given and hope that they will be with us for many years to come. May God Bless them on this their tenth anniversary at Dougherty.

Mr. Frank Strasser

10 YEARS'

SERVICE

Mr. William Schmitt

IN MEMORIAM

Robert Francis Kennedy

Nov. 20, 1925 — June 6, 1968

The Signet has chosen to honor the memory of the late Senator of our State of New York Robert F. Kennedy.

We chose Robert Kennedy not because of his being a senator or a presidential candidate but because of the kind of man he was.

Robert Kennedy's life was dedicated to striving for new and better things for people and devoting himself especially to the youth. He was a man of today's world, always willing to accept a change for the better and always looking for new and better ways to do things.

"Some men see things as they are and ask why, I dream things that never were and ask why not."

IN CORDIBUS UNUM

The coat of arms of Dennis Cardinal Dougherty. Now the symbol of many hundreds of people; the people of Cardinal Dougherty High School. People who daily live and work with the motto In Cordibus Unum, One heart between us.

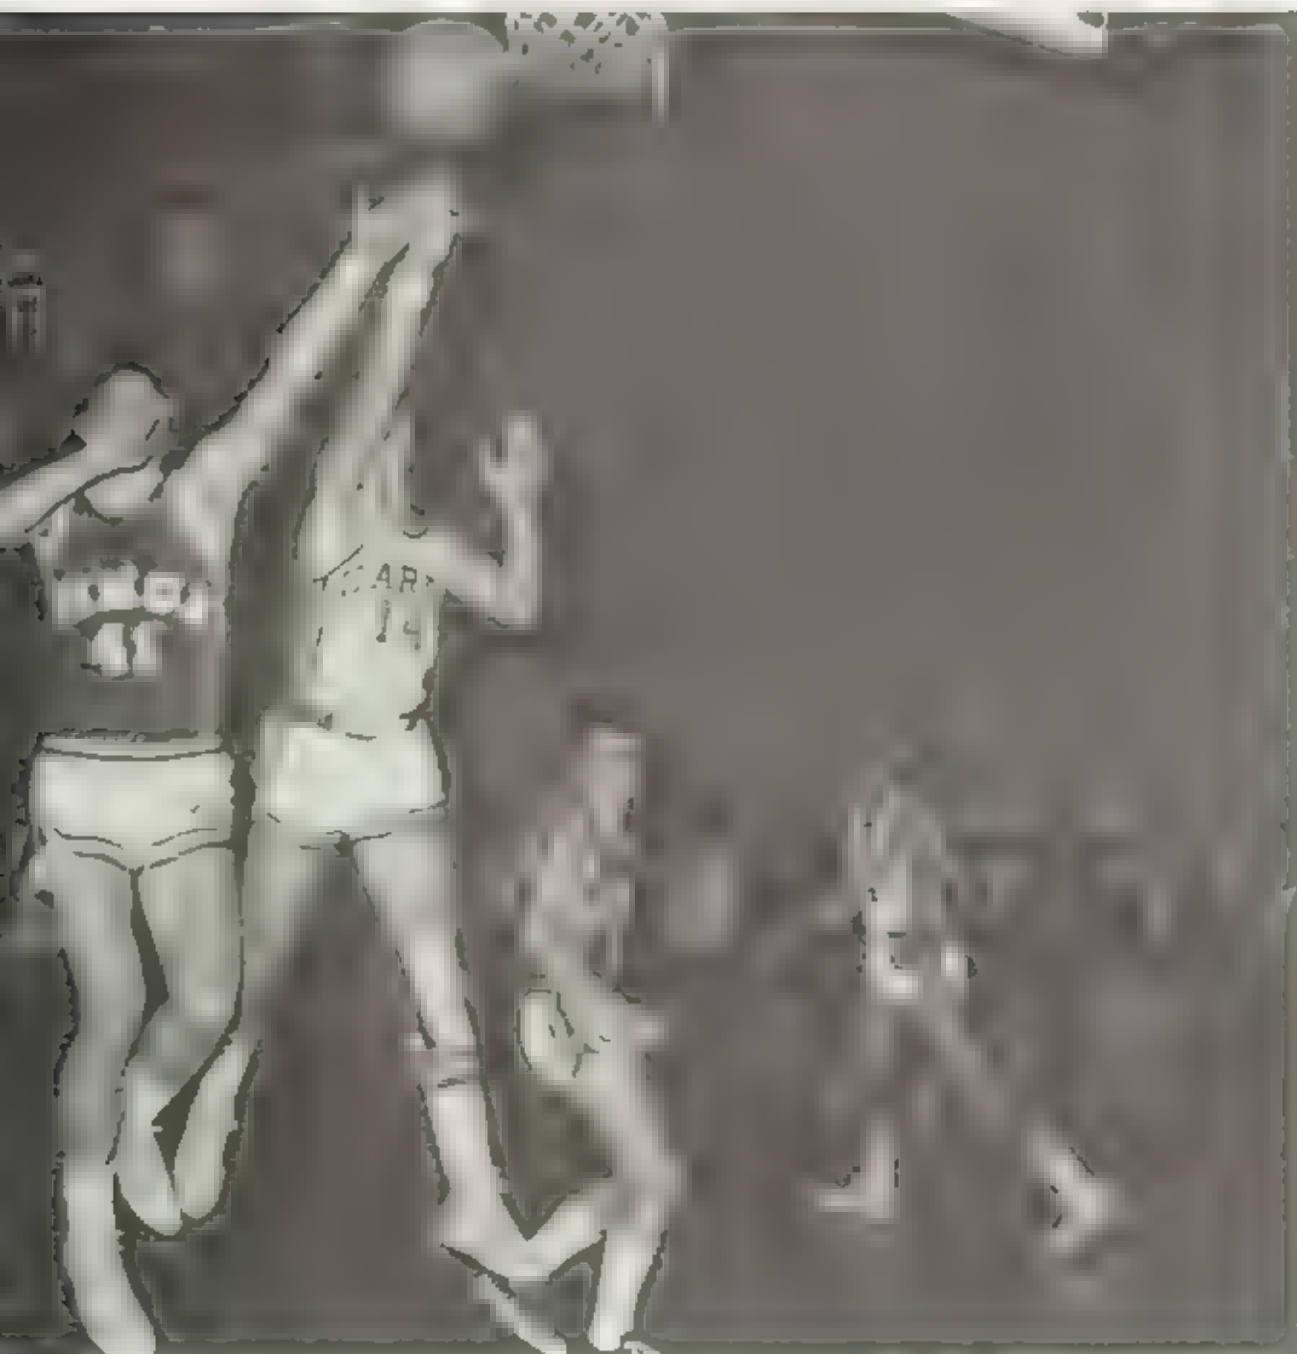

Life at Dougherty has a special air. It is a small society of its own, where everyone tries his hardest to bring honor to us all. In the next few pages we will try to give you a pictorial idea of what Dougherty is like.

EDITOR'S NOTES

The entire Signet staff would like to express to the student body of Cardinal Dougherty its sincere thanks for the great success of the patron drive. The high quality of this yearbook is as much your work as ours. We hope you will enjoy it.

Thank you!
